

**McGillivray Mine
Disaster Inquiry****Fixed for November 15—Death of
Mr. Savary Caused Delay**

CALGARY, Alta., Oct. 19.—The inquiry into the McGillivray mine disaster which had been arranged to commence before Chief Justice Harvey, special commissioner appointed by the lieutenant-governor on October 18, has had to be postponed, owing to the death of H. P. O. Savary, K.C., counsel for the commission, and will commence on Thursday, November 15, next.

H. H. Parlee, K.C., of Edmonton, and H. Ostlund, K.C., of Lethbridge, will act as counsel for the commission. It is understood that A. L. Smith, K.C., and J. E. A. MacLeod, K.C., of Calgary, will be present to look after the interests of the coal company, and that S. B. Woods, K.C., of Edmonton, will appear to back the interests of the explosives company.

Cause for Complaint!

Appreciation is shown of our efforts to invest money in this town and support every worth while institution by business people sending orders out for stationery that might just as well be had at home. During the week such has happened and in no case has the town benefited to the extent of one dollar, yet we are here to pay taxes and be partly responsible for the existence of the town in which such business people choose to live. Think it over!—Blairmore Enterprise.

ARMISTICE DAY

Two minutes silence will be observed on Armistice Day, Friday, Nov. 11th, commencing at two minutes to 11 a. m. This will be observed throughout Canada, by order of the Dominion Government, and commemorates the hour at which the Armistice took effect, the eleventh hour of the eleventh day of the eleventh month of the year.

**Local Knights of Pythias
Welcomed Supreme Officers of Organization****Big Gathering From Pass Towns
Impressed by Eloquent Addresses of Visitors**

The Knights of Pythias held a notable gathering last evening, to greet Hon. R. S. White, Supreme Chancellor, of Milwaukee, and H. M. Love, of Minneapolis, Supreme Keeper of Records and Seals, who are visiting various lodges in the province. J. C. Wainwright, of Calgary, grand keeper of Records and Seals for Alberta, accompanied the visitors. Visiting members were present from Hillcrest, Blairmore and Fernie, it being one of the biggest meetings of the order held in the Pass.

The famous Rathbone Bible, used by Justus H. Rathbone during the early days of the organization of the Knights of Pythias in 1864, was used at the gathering last evening, in connection with the Memorial Bible Classes.

**Plans Approved for
Hotel Sewer Work****Council Ratify Plans Following Report on Proposed Construction by Prov. Inspector**

Following the request of W. Bell, of the Grand Union hotel, for the construction of a sewer outlet to Nez Perce creek, Geo. E. Cottle, one of the inspectors for the Department of Public Health, for the province, visited Coleman and after going thoroughly into the local conditions, made a report to his departmental head, which was submitted to Coleman Town Council at a recent meeting.

The owners of the hotel are desirous of constructing a sewer line from the building to a point 600 feet distant into the Nez Perce creek. The necessity for this, they claim, is made evident by the wet summer experienced, as the sewage disposal system of the hotel has not been functioning properly, and the wet area at the rear of the hotel has caused the owners to fear that the foundation will give way if better drainage is not provided.

To meet this the inspector suggested that a valve be attached to the sewer pipe, whereby the sewage could only be allowed to run when the water in the creek is sufficiently high to carry it away, as in the dry seasons there would be no necessity to allow it to run into the creek, as the hotel system would then be functioning properly. It is only in wet weather when this additional outlet is required.

The proposal was accepted by the council, and at a special meeting on September 30, it was moved and seconded by Councillors Rushon and Pattinson and unanimously agreed to allow the construction of the sewer if the plans for same are complied with and the provisions for the accessibility of the valve is provided for.

The report of the inspector states that in conversation with Mr. McMillan of the Calgary Brewing Co. the latter was very agreeable to the action taken.

**Former Bandmaster Arrives From
Derby to Locate in Coleman**

Arriving from England last week, W. Evan Smith, late of Derby, has decided to locate in Coleman, and will engage in instruction of the piano, organ, trumpet and theory. He was formerly bandmaster of the Royal Welsh Fusiliers, a famous old Imperial regiment, retiring from the service in 1919, and following that was director of the British Legion band at Nottingham, Derby. He was also engaged in orchestra work, and directed the orchestra of the Empire Cinema, Derby. It is his intention to organize classes here, and also open in business in musical instruments, believing that there is a good field for this in the towns in this district of the Crow's Nest Pass.

Mr. Evan Smith has two sisters living in the Pass, Mrs. Blower, Coleman and Mrs. Alice Turner of Bellevue. It is his first visit to Canada, and he is quite favorably impressed with the country. As soon as he has organized an orchestra he will be open for engagements for dances and concerts.

At Monday night's meeting of the town council it was decided to engage a staff of seventeen plain-clothes police to guard town property against vandalism on Halloween night. Prison terms will be awarded any youth caught in the act of damaging property.—Blairmore Enterprise.

Theatre News

The greatest All-British production ever made is "The Flag Lieutenant," showing at the Palace on Friday and Saturday. This picture has been accorded a big reception in the cities. Fox News on Saturday.

Thanksgiving holiday special on Nov. 7th will be the Dempsey-Tunney fight pictures, with the famous seventh round in slow motion. There will also be shown the famous picture "Metropolis," a Paramount production, with a matinee on the Monday afternoon.

**It's a Long, Long Trail for
Nell, Walker and Talker****Passes Through Coleman on Hiking
Tour to Capitals of the World
—On the Way to Hawaii**

Nell's A. Walker, styling herself as walker and talker, breezed into town on Monday with the aid of a friendly motorist, and at first glance 'was taken' for a man, so masculine was her appearance. She is trying to visit various capitals of the world, and claims to have visited Washington, D. C., Ottawa, Havana, and Mexico City. She also states in a book which she sells that she is the only woman to walk alone to the capitals of the world, and after visiting Alaska, will visit Honolulu, Australia, South Africa and South America.

Her progress through Alberta has not been any sinecure, judging from her reports. City reporters have not been over anxious to write up her 'journeys', possibly because long-distance walkers are becoming a glut on the market, and she states that in some places the police take a second look at her as if suspecting that she is a boot-legger. To give herself more the appearance of a woman, she dropped into Mr. Graham's barber shop, and had her hair trimmed so that the side curls will grow out. She had come in from Pincher Creek on Monday, and said that was a short day's record for mileage, so it is assumed that most of her hiking is done on four wheels with the aid of motorists travelling in her direction. She had visited Edmonton, Calgary and Lethbridge, reaching here Monday afternoon, with her pack strapped to her back, wearing men's clothing and high boots, looking very sturdy and the picture of health. As to her age, she was not answering any questions, but one would be safe in stating she was 25.

As to her experiences through Alberta, she said she had been offered three jobs on threshing outfits, and had received three proposals of marriage. Sometimes she strikes it lucky in selling her books, which contain a mixture of experiences and questions asked along the road, and at other times she has difficulty in raising sufficient to pay expenses. With the miles quiet in the Pass, she was not finding things very easy, but hoped to sell more books at Fernie, Cranbrook and Kimberley. A lady once asked her if she was afraid of the men, to which she replied that they were afraid of her, for she carries a .44. A chapter from her book which she sells at 50¢ each is worth reading. It is entitled "Hotels That Are Not Hotels," and goes on:

"Don't think all your scores come from the highways, autos or woods. Hotels will furnish a few. Arriving late in a small town one cold night, took a chance at the first hotel, although it was none to inspire."

(Continued on Page 5)

**Crows Nest Pass and Waterton
Trail Association is Organized****Resolution Unanimously Passed Urging Construction of
Highway to Connect Waterton National Park With the
Trans-Canada Highway via Pincher Creek—Coleman
Board of Trade Co-operating in Movement**

As a result of a conference yesterday afternoon of representatives of Boards of Trade of Coleman, Blairmore, Hillcrest, Bellevue, Cowley, Lundbreck and Pincher Creek, to co-operate in joint action for the purpose of urging the construction of a standard highway from Pincher Creek to Waterton Lakes Park, the following resolution was passed:

That the Crow's Nest Pass and Waterton Lake Trail Association draft a resolution to the minister of public works and the chairman of the highways commission asking that the trail from Pincher Creek to Waterton Lakes be gazetted as a highway at the first session of the House, that an engineer be sent immediately to locate the road in order that construction of a standard highway may be commenced in the early spring of 1928.

Prior to the passing of the resolution there was considerable discussion in which Coleman delegation pointed out the necessity of the Red Trail between Pincher and Macleod being finished, while the Pincher Creek delegation was equally as steadfast in pressing for the construction of the Waterton road, stating that it would be of greater value for tourist traffic at present than the completion of the section of the Red Trail east of Pincher Creek.

L. M. Morgan, of Blairmore, acted as chairman of the meeting, and W. L. Rippon, of Coleman, as secretary. R. F. Barnes of Coleman, stressed the point that as far as the Crow's Nest Pass towns were concerned, the opinion was that a through road eastwards would better serve this district and advocated

the completion of the Red Trail before urging action on the Waterton trail. Pincher Creek delegates pointed out the necessity of a road north from Waterton to enable the tourist to connect with the route through the Pass, and also referred to the heavy investment made there in the erection of the Prince of Wales Hotel, which deserved a good road to connect it with the Red Trail.

President Morrison of Coleman Board of Trade, though agreeing with the urgent necessity of the completion of the Red Trail east of Pincher Creek, assured Pincher Creek members that they would be willing to co-operate with them in their efforts if they would also use their influence towards the completion of the Red Trail, particularly the section from Pincher to Macleod. George Kellock and W. S. Purvis of Coleman also spoke on behalf of the towns in the Pass, but finally agreed to support the resolution, so that it was passed unanimously.

Those present from Coleman were A. M. Morrison, G. Kellock, W. S. Purvis, W. L. Rippon, R. F. Barnes, H. Snowden and H. T. Halliwell. Blairmore was represented by Mr. Chappell, L. M. Morgan and W. J. Bartlett.

Officers of the Crow's Nest Pass and Waterton Trail Association were appointed as follows: Hon. Mr. McPherson, minister of public works, hon. president; G. G. Coote, M.P., and P. N. Christopher, M.L.A., joint vice-presidents; Mayor Rosenberry, Pincher Creek, president; and the following vice-presidents: A. M. Morrison, Coleman; F. Smith, Hillcrest; W. Leidlaf, Pincher Station; W. Kerr, Bellevue; L. M. Morgan, Blairmore; also one each from Cowley and Lundbreck. Mr. Frank of Pincher Creek was appointed secretary of the association.

Hillcrest Masonic Lodge held a

whist drive and dance last Friday

evening, at which there were visitors

present from Coleman and

other towns in the Pass.

The Conservative National Convention

The holding of a national convention by any great organization is always a matter of interest and of importance to people generally because of the effect it may have on the country as a whole. But when such a convention is called by a political party for the purpose of formulating policies and selecting a leader, the gathering becomes one of first importance. It was natural, therefore, that the recent Conservative Convention in Winnipeg should command not only the interest of members and adherents of that particular party, but of the Canadian people as a whole.

Interest in the convention was all the greater because it was unique in the history of the party, being the first national gathering of Conservatives to be convened since Confederation. Liberals and other political groups have convened in national convention but the Conservatives had not done so prior to this year of Canada's Diamond Jubilee. It added one more nationally important observance to this memorable year in Canada's history.

As is well known to our readers, this column does not attempt to deal with or discuss questions which are the subject of controversy between political parties, and in this particular article there is no intention of departing from that rule. But as a national event, the recent convention presented certain features and took certain action which, instead of being controversial, are matters for general satisfaction.

In the first place, like all great national gatherings, the Conservative convention performed an unquestioned service to Canada in bringing together hundreds of the leading men and women of the nine provinces. The resultant exchange of views and opinions and the new knowledge gained of each other and each other's problems, the "found table" conferences in committee, can not fail to profoundly affect future policy throughout the Dominion.

To the West in particular the unqualified endorsement of the Hudson Bay Railway project and approval of steps not only to complete the railway but to develop a port and trade in the west is most gratifying. It definitely removes this great undertaking from the realm of partisan politics and places it where it belongs as one of the great national undertakings of the Dominion to the success of which all are committed.

It is likewise gratifying to the West that the mantle of leadership should have fallen on the shoulders of a Western man, yet a man who has an intimate knowledge of the East. Whether one agrees with the political views of R. B. Bennett or not, few, if any, will question his ability or his love for and desire to serve his native land. His long experience in public life, as a member of the old North-West Territories Assembly, the Alberta Legislature, and the House of Commons, his training in law, his qualifications as a speaker, and the responsibilities which have been his as Minister of Justice and Minister of Finance in former Governments at Ottawa, should fit him for the new task of party leadership. In the hands of Hon. Mr. Mackenzie King and Hon. R. B. Bennett, all that is best in British Parliamentary traditions and procedure should be worthily upheld.

Finally, the convention, and the settlement of the question of leadership, should have the effect of giving greater stability to political thought throughout the Dominion. It marks the end of a period of indecision and unrest in the ranks of one of the political groups which is a good thing for Canada as well as for the party itself. Unity in purpose and definiteness in action is what a young and rapidly developing country like Canada urgently requires. In order to make progress, it is vital to the interests of the Dominion that not one or two but all political groups know their own minds, definitely state their policies, and show decision in their actions. Unless those who direct and those who seek to direct the destinies of Canada are themselves strong and united in leadership and policy, it is futile to hope that they can make that contribution to the welfare and progress of Canada which is essential.

New Serum Successful

Claim Cure For Infantile Paralysis Has Been Perfected

Discovery of what is said to be the first effective and specific for treatment of infantile paralysis was announced at Indianapolis by Dr. Lilly & Co., pharmaceutical chemists.

After ten years' research an anti-toxin serum has been developed from the horse as in the case of diphtheria and scarlet fever serums. The serum is being produced there in co-operation with Dr. Edward C. Rosenow, chief of experimental bacteriology of the Mayo Foundation, and already 10,000 units have been sent to poliomyelitis epidemic centres from coast to coast and even into Cuba.

First reports show it especially effective in Ohio and California.

Clinical observations show that best results are obtained if the serum is used as soon as the case has been diagnosed. Recovery from paralysis being reasonably certain in such cases. The serum has been found effective in treating paralysis

already begun, and in reducing handicaps of bodies already paralyzed.

The same Lilly chemist, who developed insulin for diabetes, control worked on the new paralysis serum.

Germany Plans Air Train

Powerful Planes For Locomotives and Gliders For Pullmans

Aeronautical engineers in Germany are working on plans of an "air train" as a possible means of travel in the future. The locomotive will be a powerful aeroplane and the "pullman" a row of gliders coupled to the locomotive and to each other, as the cars of a train, only with considerably greater spacing between the units.

Passengers in each glider will be destined for some particular town, and as the airframe of each town is approached the glider for that destination will be released from the end of the string and settle gracefully down with its special pilot and its passengers.

Banff Winter Carnival
The Winter Carnival at Banff is to be held from February 4th to 11th next year, according to L. C. Ogilvie, president of the Banff Winter Sports Association. Preparations are under way that give promise that this carnival will eclipse all previous events of the kind.

Many mothers can testify to the virtue of Mother Gray's Worm Expeller, because they know from experience how useful it is.

An Unusual Expedition

Then Will Study Sea Life 500 Feet Below Surface

Plans for an expedition that has as its destination 500 feet below the surface of the Pacific Ocean were revealed here by George M. Williamson, one of the Williamson Brothers who in his Jules Verne's "Twenty Thousand Leagues Under the Sea" thirteen years ago.

In the project, announced by Mr. Williamson, there will be lowered to a depth of 500 feet below the surface of the ocean in a steel ball shaped chamber, and from heavy glass portholes they will study deep-sea life.

A specially built schooner carrying the party of scientists who will perform the researches will sail from San Francisco within sixty days for the west coast of Mexico, where the first experiment is to be made, he said.

Use This Liquid To Peel Off Corns

An annoying remedy—acts in a few seconds and causes no pain. The corn shrivels up and loosens. Another application or two and the corn drops out. Wonderful—yes it is—but that is just how. Putnam's Corn Extractor from many druggists. Get your bottle today. Refuse a substitute for Putnam's.

Old Age Pensions For B.C.

The Pittance That Will Banish the Worst Spectre of Poverty

The Vancouver Province is strongly in favor of old age pensions, which are now established in British Columbia. It means, like it is in many, "all the mighty differences" which lie between the tragedy of age in want and the assurance of a pittance which will at least banish the worst spectre of poverty. It is not too much, but it is a very great and beneficent thing. The beginning of old age pensions in Canada, in the lives of some of those neighbors and fellow-citizens of ours—those who have fulfilled their three-score years and ten, and have fought the battle a little hard in their later days.

A SIMPLE TREATMENT FOR CHILDREN'S COLDS

Cold in the head is very common at this time of year, especially in the very young. Neglect of a cold is prone to lead to serious complications. To relieve all congestion of the system is the first step in treating a cold, whether it be in the infant, child, or the young man. Baby's Own Tablets are the ideal means of doing this. Containing no narcotics or other harmful drugs they soothe the child's fretfulness, relieve its suffering and ensure convalescence.

Baby's Own Tablets are without an equal for relieving infantile colic, constipation and colic. They check diarrhoea; break up colds and simple fevers; promote healthy digestion and make the dreaded teething period easy. The Tablets are the one medicine that a mother can give her child with perfect safety as they are guaranteed to be free from injurious drugs. They are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Combined Harvester-Thresher

The harvester-thresher has had a very definite place in the crop of 1927. In 1926 there were 180 machines in Western Canada, which cut approximately 95,000 acres. During the present season 200 machines were distributed in this territory alone.

Health cannot be looked for in the child that is subject to worms, because worms destroy health by creating internal disturbances that retard development and cause serious weakness. Miller's Worm Expeller, which is sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Father—"Oh, so you wish to marry my daughter? Do you know she is used to all the luxuries of life?"
Poor Sister—"Fiddle! And I can easily adapt myself."

"A Babe in the House is a Well-spring of Pleasure."

Prospector Plans Bold Venture

Will Smash Way Through Trackless B.C. Timberland To Manson Creek

George W. Otterson, who has prospected in the creeks of Northern British Columbia for nearly 30 years and who has made several fortunes in his various mining ventures, is again prepared for his boldest venture into the unknown.

Other old-timers of the trail laughed at Otterson last year when he announced his plans for smashing his way through trackless timberland to Manson Creek, which was the scene years ago of important mining activity.

He is going here now to Fort St. James and there he will resume his daring drive northward with his huge caravan of mining equipment. First of all, there is a complete drag line dredge-having a daily capacity of 1,000 cubic yards, the largest piece of which weighs 12,000 pounds. This is only a part of the juggernaut which Otterson is, hauling through the wilderness by motor tractor while an excavator goes on ahead preparing the way. Then there is a complete blacksmith, sawmill and machinist outfit, kitchen equipment, steam boiler and engine and electric light plant, the latter to give Manson Creek some of the brilliance which it enjoyed in the days when it was the capital of the golden empire of the far north country.

President Coolidge Met British Warships

Cruisers Fired 21-Gun Salute When Yacht Was Sighted

When the British cruisers, the Calcutta and the Talro, reached Washington they were met by the American warships. How Should I Wean My Baby

This is a serious problem to many mothers. Weaning should always be done gradually, beginning about the seventh month, being one or two bottles feedings during the day. Increasing the number of bottle feedings gradually until weaning is accomplished. Borden's Eagle Brand Milk is so like mother's milk in taste and ease of digestion that it can be given alternately with breast milk without causing abrupt weaning.

In this paper from time to time you will find an advertisement of Borden's Eagle Brand Milk. A food that has raised more healthy babies than all the prepared infant foods combined. Cut out the advertisement and send it to the nearest Borden's Eagle Brand Milk dealer. He will send you, free of charge, instructions for feeding your baby, and a Baby Welfare and Baby Record Book. Or, just write the company, mentioning this paper, and they will be sent.

Starts On Long Jaunt

New York Girl, Riding Horses To Los Angeles On Wager

In accordance with a \$25,000 wager with his Grace the Marquis of Dufferin, a pretty 22-year-old girl, Miss Victoria, mounted her horse at the City Hall, New York, and set sail in a cowboy saddle for a lone jaunt to Los Angeles, 3,011 miles distant as the hoof beats.

Miss Victoria, renowned the Marquis, implied that America's women were a worthless lot with such heat that the conversation got down to facts. The Marquis, she said, proposed to wager \$25,000 that she personally could ride a horse from New York to Los Angeles if she spent the rest of her life at it. She told him 120 days would be ample.

Honey Exports

With a honey production of 21,000,000 pounds in 1926, an record of 200 per cent. increase for the past five years was recorded. Exports of honey from Canada in the twelve months ended June, 1927, had a value of \$191,842, as compared with \$150,732 in the previous year, and with \$92,945 in the year before that. Germany is the principal customer, other purchasers being the United Kingdom, the United States and the Netherlands.

Saskatchewan Motor Licenses

According to the Saskatchewan Provincial Treasurer's report there has been a tremendous jump in the number of motor cars used in the province, from 10,925, in 1916, to 102,000 this year—up to the end of August. Revenues from motor licenses and fees the year ran to \$1,510,262; corporation tax to \$216,199,000; and railway tax \$345,000.

Don't marry him if he sits in his car and looks instead of coming up to the door. He's the kind who will want hotel service in the home.

"You need cold compresses!"
"Yesterday you said hot ones!"
"Ah! Science has made much progress in the interval!"

Want Representation

Saskatchewan United Farmers Would Have Agricultural Interests Represented On Rail Board

Representation of organized agricultural interests on the Canada Board of Railway Commissioners is being asked by the United Farmers of Canada, Saskatchewan section, in a resolution passed by the executive board meeting at Saskatoon. A copy of this resolution has been sent to all Western Federal members of parliament. A vacancy will occur on the board shortly through the expiration of the term of office of Commissioner A. C. Boyce.

The resolution is as follows: "As a matter of justice and equity, we the executive board of the United Farmers of Canada, Saskatchewan section, strongly urge a recommendation of the personnel of the railway commission so as to give the Western provinces a more equal representation with Eastern Canada, and that one such appointee be representative of Western organized agricultural interests."

"Further that a copy of this resolution be sent to all western federal members with a view to soliciting their co-operation and support."

A similar resolution has also been passed asking representation of organized agricultural interests on the board of directors of the Canadian National Railway.

Relieves Asthma At Little Expense. Thousands of dollars have been vainly spent upon remedies for asthma and seldom, if ever, with any result. Dr. J. B. Kellogg's Asthma Remedy, despite assurance of benefit, costs so little that it is within reach of all. It is the national remedy for asthma, far removed from the class of doubtful and experimental preparations. Your doctor can supply it.

Concealed His Identity

First and Second Essay Contest Prizes Go To One Man

Anyone who has been curious to ascertain the identity of Louis Riel, and Pierre L'Archeve, who were announced as first and second prize winners in the essay contest conducted by the confederation jury committee, can be satisfied by the fact that their names were fictitiously employed by a major trustee of the public archives.

Major Lauret is a well-known authority on Canadian history, being a member of the Royal Society, president of the Pulk Loo Society, and secretary of the Canadian Historical Association.

An Oil Of Merit.—Dr. Thomas' Electric Oil is not a jumble of medicinal substances thrown together and pushed by advertisement, but the result of the careful investigation of the healing qualities of certain oils as applied to the human body. It is a combination and it won't keep but it favors from the first. A trial of it will carry conviction to anyone who doubts its power to relieve and heal.

Making Long Empire Cruise

Four British Planes Will Take Year To Complete Schedule

To the accompaniment of salutes from warships and the cheers of thousands of spectators, four Royal Air Force flying boats have started on an empire cruise of 25,000 miles, which is scheduled to take a year to complete. The flight includes the first aerial coasting of India, a complete circuit of Australia, a hop to Hong Kong and back to Singapore where the first is expected to be attained permanently.

The planes, all of the seaplane type and equipped with two 450 horsepower Napier Lion engines, are under the command of Group Captain H. M. Caye-Horner-Cave.

The White House gave its name from the fact that after the first great earthquake, which was of but freestone, was burned by the British in 1814, the walls were covered with white paint to hide all traces of fire.

"I called to make an appointment with the dentist."
"He's out just now."
"Ah! When do you expect him to be out again?"

How dull business would be if every man refrained from buying until he could afford it.

Don't marry him if he sits in his car and looks instead of coming up to the door. He's the kind who will want hotel service in the home.

Eagle Brand has raised more healthy babies, since 1857, than all other infant foods combined.

Borden's EAGLE BRAND CONDENSED MILK

BABY'S OWN SOAP Pure & Fragrant Best for You and Baby too

The BABY

No mother in this enlightened age would give her baby something she did not know was perfectly harmless, especially when a few drops of plain Castoria will right a baby's stomach and keep it healthy and contented.

That's the beauty of Castoria; its gentle influence seems just what is needed. It does all that castor oil can do, without that shock to the system. Without the evil taste, it's delicious! Being purely vegetable, you can give it as often as the sign of colic; constipation; diarrhea; or need to aid sound, natural sleep. Just one warning: It is genuine Fletcher's Castoria that physicians recommend. Other preparations may be just as free from all doubtful drugs, but no child of this writer's is going to test them! Don't, the book on care and feeding of babies, that comes with Fletcher's Castoria, is worth its weight in gold.

Children Cry for Fletcher's CASTORIA

He: "I have an income of 20,000 kroner a year. Could you get on on that?"
She: "Yes, I think so. But what about you?"
Hindson, Oslo.

ASK FOR LOWER DUTY ON ALL COTTON GOODS

Ottawa.—That the tariff of cotton, yarn and cloth should be high enough to cover the wage bill of the industry but no higher, was the contention of R. J. Deachman, acting for the Consumers League of Canada, in presenting to the tariff commission here an application for the reduction of duty on all cotton goods.

Quoting from reports issued by the Dominion Bureau of Statistics, Mr. Deachman gave the total value of the product for Canada as \$59,581,875, with wages paid amounting to \$10,993,045 or approximately 18 per cent for the year 1921. The duties on the same commodities range from 20 per cent to 35 per cent, under the general tariff.

Alme Geoffrion, K.C., appearing for a group of manufacturers, in answer to the brief of the consumers league, argued that Mr. Deachman's figures were not based on facts. The average duties, he said, in 1921, amounted to 21.6 per cent, in 1920, to 23.5 per cent. Mr. Geoffrion also questioned the figures of total production.

J. R. K. Bristol, manager of the tariff department of the Canadian Manufacturers' Association, contended that cotton entered into many products which were not shown under the tariff schedule of "Cotton" and that any application for reduced tariff affected many other industries. He submitted that those directing such industries had no voice in the application. Chairman W. H. Moore assured Mr. Bristol that there would be a second hearing.

Submitted To Privy Council

Saskatchewan and Alberta Wish To Appeal Ruling On Education Act

Ottawa.—The judicial committee of the Privy Council will be asked at its sitting next month in London for leave to appeal from the judgment of the Supreme Court of Canada upholding the constitutionality of the Alberta and, inferentially, the Saskatchewan Education Act in respect to education.

Eugene Lafleur, K.C., for the government, has been asked to present the petition and will do so in London. It sets forth that in view of the importance of the question a pronouncement by the Imperial Court of Last Resort is desirable.

The case, arising in connection with the return of Alberta's resources, is unique, in that, the government is really appealing from a decision in its own favor for the purpose, as indicated, of securing a judicial declaration that will be final and absolute.

U.S. Giant Dirigible Will Visit Ottawa

British and American Officers To Make Trip In "Los Angeles"

Ottawa.—The giant United States dirigible the "Los Angeles," with Sir Philip Sassoon, British Under Secretary of State for Air, accompanied by a number of British and American officers on board, is to visit the capital on October 29, according to announcement from the Department of National Defence. The airship will take off from Lakeshore Blvd., N.E., at 5 a.m., October 29, arriving over Ottawa between 3 and 4 p.m. of the same day. A stop of about an hour is to be made here.

Fastest Ships Practicable
Washington.—Construction of a fleet of fast passenger ships, twice the size of a destroyer and capable of making the trans-Atlantic trip to England in four days, is practicable, is the opinion of Chairman O'Connor, of the Shipping Board, who has witnessed tests of a 20-foot ship model at Washington navy yard. A speed of 35 knots was indicated by the tests.

Nelson To Face Trial
Winnipeg.—Marie Nelson, alleged stranger, now in jail here, charged with the murder of two Winnipeg women, will be tried before Mr. Justice Dwyer at the assize court opening November 1. R. B. Graham, K.C., crown prosecutor, will represent the crown while J. R. Stitt will act on behalf of the prisoner.

British Peasants Bright
New York.—"England has turned the corner" and the outlook for the future is bright, declares H. Wickham Steed, editor of Review of Reviews, here today.

Ireland Has a Campaign for Pure Milk

Police Forces To Co-operate

Dominion Government Will Not Consider Withdrawal Of R.C.M.P.

Ottawa.—While the Dominion Government cannot for constitutional considerations, the withdrawal of the Royal Canadian Mounted Police as agents of the Federal authority from the province of Saskatchewan as suggested in press dispatches from Regina, some arrangement may be arrived at between provincial and federal authorities whereby the R.C.M.P. and the Saskatchewan Provincial Police will co-operate in the enforcement of provincial statutes.

This was the statement of Hon. Ernest Lapointe, Minister of Justice, regarding the "police situation in the prairie province." Hon. Mr. Lapointe stated that the press dispatch conveyed no news to him, since negotiations were under way last year between Saskatchewan authorities and himself as a result of the feeling at Regina that there was overlapping in provincial police work.

"There has been no trouble. It is purely a matter of economy," the minister said. "Saskatchewan authorities want to avoid overlapping, and think that provincial matters affecting the enforcement of the law could be better handled by one force or by closer co-operation between the existing authorities."

"The government has no idea of withdrawing any part of the R.C.M.P. anywhere, but we may be able to come to some arrangement with the gentlemen from the West at our meeting in the near future to ease the situation there."

Alberta Coal Strike

Minister Of Labor Offers His Services To Help End Dispute

Ottawa.—The assistance of the Department of Labor was offered to the parties of the Drumheller coal strike by Hon. Peter Heenan, Minister of Labor.

"As the law now stands," said the minister in an interview, "Alberta has not passed legislation to enable the federal department to enable the industrial disputes act in that province. But Alberta has passed an industrial disputes act of its own, and I feel sure they will look after this particular trouble."

"However, if the parties to the dispute or the provincial government of Alberta desire any assistance from this department it shall be happy to do everything in my power to bring about a settlement."

Mr. Heenan pointed out that six of the nine provinces had passed the enabling legislation which permitted the federal industrial disputes act to function. Quebec and Alberta are the two which have not adopted the necessary legislation.

Deny Charges Against Moscow Millionaires

Were Not Associated With Mission Says Former British Secretary

London.—The Daily Express quotes Edward Carmichael, former secretary of the British Mission in Moscow, as denying that Kyril Prose, and Vladimir Prose, two former Moscow millionaires alleged to have supplied him with Red army and navy mobilization plans, ever associated with the mission.

"It is another of the long series of scandals which followed the withdrawal of the British mission," Secretary Carmichael, who is now in London, declared. "We are naturally concerned by the arrests because they mean almost certain death of scores of innocents."

According to the Daily Express, the charges also involve Sir Robert Hoagson, one time head of the mission and the former British consul in Leningrad.

Hospital For Paralysis
Edmonton.—A temporary hospital for the care and treatment of infantile paralysis patients during the period of convalescence is to be established by the Provincial Government, according to announcement made here. Arrangements for getting the new hospital under way will be made as soon as a survey of the general situation with respect particularly to the likely number of cases, has been completed. Patients will be taken from all parts of the province.

A Second Cave-In
Sudbury, Ont.—A second cave-in at the Mond Nickel Company mine at Sudbury has put the Canadian Pacific Railway division at this point temporarily out of commission. The east bank of the cavity collapsed to a distance of 100 feet, 50 feet in depth but did not drag the roadbed into the cavity.

However, the tracks are not considered safe for traffic as the ground has been undermined.

Believe Clue Found To Missing Planes

Rubber Ball Picked Up In Ocean Bears Number 218

St. John's, Nfld.—A report from Burgess that a rubber ball had been picked up there, which was believed to have been dropped from an aeroplane, led to the hope that it might furnish some clue to the yet unsolved fates of the trans-Atlantic planes, Whitebird and St. Raphael.

The ball, about two feet in diameter and made of an expensive material, was enclosed securely in a strong canvas bag. The numbers 125 and 178E, a little worn, could be seen on the rubber, but a word on the outside casing was indecipherable, although it looked as if it might have been London.

The number 218 on the canvas bag was very distinct.

Noted Schooner Sold

Ship On Which London Wrote "The Sea Wolf" Brought \$1,400

San Pedro, Cal.—A two-masted schooner, aboard which Jack London wrote his novel "The Sea Wolf," was sold under a United States marshal's hammer for \$1,400 as the ruin runner Hakadeta. The schooner, which was known as the Saury Lass when owned by the novelist, went to Mrs. Charles Conley Jones, of Los Angeles.

The run runner was sold in April on the coast of Lower California. She was built in Victoria, B.C., in 1922, her latest registry was Panama, but this was cancelled by Panama after seizure.

CAREFUL DRYING OF WHEAT WILL SAVE MILLIONS

Winnipeg.—Important recommendations which probably will mean a saving of millions of dollars in the marketing of this year's grain crop of Western Canada are contained in a tentative report submitted to the Board of Grain Commissioners by the grain research committee of the Canadian Research Council.

Owing to adverse weather conditions, an immense amount of wheat and damp grain is being threshed this year. This will necessitate careful drying. Last year a similar condition prevailed, and heavy discounts had to be made on European sales as a result of the general complaints regarding the quality of dried grain.

It is said that if the grain this year is properly dried, as recommended in the report, the great losses sustained during the last season can be avoided and they were estimated to total into the millions of dollars. Thus the producers will get the direct benefit.

With a view to preventing the recurrence of heavy losses this year, the grain research committee of the Canadian Wheat Pools undertook to investigate the effect of drying on the quality of wheat last January.

Remove Youthful King
Berlin.—Reports from Bucharest that a case of cerebrospinal meningitis has broken out at the Royal Palace at Sibiu, Rumania, as a precautionary measure young King Michael has been removed to a castle in the Carpathians.

Armistice Is Predicted
Chicago.—An armistice in Mexico's religious warfare will follow the presidential election there, Rev. Leopold Ruiz, archbishop of Michoacan, predicted upon his arrival here.

GOVERNOR GENERAL AT JASPER

Their Excellencies the Governor General and Lady Willington, and the other members of the Viscount party, enjoying a quiet holiday at Jasper National Park, posed for this informal photograph just before luncheon. They had spent the morning golfing or on other outings in the group are Mrs. General E. A. Ashton, of Ottawa, and Mrs. Ashton, Robert H. Davis, editor of the New York Herald, and Mr. Davis, and R. H. Knight, acting superintendent of Jasper National Park, who were the luncheon guests of Their Excellencies

on this occasion. Viscount and Lady Willington are seated on the steps in the centre. Mrs. Osborne is on the extreme left, next her is Mrs. Ashton; Mrs. Davis is on the right of His Excellency and Mr. Knight is seated beside Lady Willington; the Hon. Raby Hardinge stands beside Mr. Knight. In the front row are the Hon. Mrs. Freeman-Thomson, Capt. E. C. Freeman-Thomson, and Capt. E. C. Jarvis. Those in the back row, left to right, are: Mr. Davis, Capt. E. C. Melville, Lord Hardinge, Lady Hardinge, and General Ashton.—Photograph, Canadian National Railways.

Swims Across English Channel

Mercedes Fleets, a London Typist, who is the first English woman to swim the English Channel. Despite the lateness of the season and a heavy fog she swam victoriously ashore at St. Margaret's Bay at 10 p.m., after having been in the water 15 hours and 15 minutes. Twice previously had the channel been swum by women, both Americans.

Ontario Prefers Western Coal

Would Pay Higher Price If Necessary Opinion Of Premier Ferguson

Winnipeg.—There will be no amending of the constitution and no tampering with the British North America Act arising out of the conference of provincial premiers, slated to open in Ottawa on Nov. 3, according to Hon. Howard Ferguson, premier of Ontario, who on his arrival in Winnipeg from a tour of the West, characterized the placing of such question on the conference agenda as "absurd."

"When we get through with it, I don't think it will be raised again for some time," he said, adding that the premier he had spoken to during his trip were of the same opinion as himself.

Referring to the question of Western coal for Ontario consumption, Mr. Ferguson said he believed the people of his province were willing, if necessary, to pay a bit more to use the native product. While glad to have U.S. capital for development, while he welcomed American co-operation and American settlers, he was averse to paying them money for something Canada produced, especially as some Canadian miners crossed the border it stayed there.

Mr. Ferguson thought that with time, and as the result of careful discussion and study of all angles of the Western coal question, negotiations might be somewhere.

Remove Youthful King
Berlin.—Reports from Bucharest that a case of cerebrospinal meningitis has broken out at the Royal Palace at Sibiu, Rumania, as a precautionary measure young King Michael has been removed to a castle in the Carpathians.

Armistice Is Predicted
Chicago.—An armistice in Mexico's religious warfare will follow the presidential election there, Rev. Leopold Ruiz, archbishop of Michoacan, predicted upon his arrival here.

Plan Aviation Program For Coming Year

New Flights and Exploration Trips Included in U.S. Progress

New York.—Aviation has advanced a new year's boom program calculated to surpass the unprecedented achievement of the season now drawing to a close.

That program includes: Building of new factories by Charles A. Levine and Anthony H. G. Fokker. Manufacture by Levine of planes ranging from a "diver," priced at \$15,000, to a multi-motored type for ocean travel.

An air expedition into the Arctic under command of General Noble, member of the crew of the Norge. A trans-Atlantic flight by Charles D. Chamberlain in a huge Belgian plane capable of transporting 20 persons.

Harry P. Guggenheim, Philadelphia, announced that he had created a fund to promote research work in the interest of aviation. The fund, it was announced, would be used to develop instruments which would reduce the hazards of flying.

A gold medal, to be awarded annually to the person who does the most to minimize the dangers of aviation, was announced by the Engineers' Club of Philadelphia.

Women and the Senate
Question Of Eligibility Is To Be Submitted To Supreme Court

Ottawa.—The government has decided to submit to the Supreme Court the question of whether women are eligible to sit in the Senate.

For some time past, women's organizations have been urging that any necessary legislation should be passed to enable women to sit in the Senate the same as they can now sit in the House of Commons. But there always has been some doubt whether the British North America Act gives the necessary authority. The act authorizes the government to appoint "qualified persons," but is a woman a person in the meaning of the act? Or is the term person limited to a man?

The government also has decided to apply to the Privy Council for leave to appeal on the question of Alberta's natural resources. Transfer of Alberta's resources was before the Supreme Court on a reference heard some time ago, and a reference heard some time ago, and a reference heard some time ago.

That judgment the Dominion government now seeks to have taken to the Privy Council for a final ruling on the subject.

CRUCIAL STAGE IS REACHED AT GENEVA MEET

Geneva.—The crucial stage of the international conference for the abolition of restrictions on imports and exports was reached today. Every country wants prohibitions removed in principle, but when it comes to practice it was evident from the discussions that the restrictions to be permitted by the convention may be so numerous that the document runs the risk of not meeting the requirements.

The German, French and United States delegates led the fight to place what they called a "worth while" treaty. The "struggle" daily turned on the question of the first convention which authorizes governments to impose restrictions to meet extraordinary circumstances and to "protect vital economic and financial interests."

Hugh R. Wilson, United States delegate and minister in Switzerland, moved to strike out the phrase relative to economic and financial interests and to substitute the expression "in case of war or national calamity." The questions involved will go to committees for elaboration, and the new text will doubtless be a compromise.

The developments of the conference indicate that various countries wish to secure the removal of prohibitions against products of their particular countries.

Beam System Of Radio
Wm. Marconi Says It Is the Basis Of Future Improvements

Washington.—The beam system of radio transmission is the basis for all future wireless improvements, in the opinion of William Marconi, here as one of Italy's representatives at the international radio conference.

Upon its perfection, he believes, will depend to a large extent the development of such widely different wireless applications as photographic transmission and radio photography.

Marconi explained how he has succeeded in restricting radio emanation to a beam diverging from the sending station at an angle of not more than to or three degrees. The effect of the continuing wave that all energy of the transmitting station which under ordinary circumstances would have been spread in all directions was concentrated along this beam.

Owing to this concentration, the strength of the incoming signal at the receiving station had been increased as much as 200 times in some cases. In trans-Atlantic communication between this country and England, he said, the beam system had strengthened messages 100 times. To obtain the same strength of incoming signals without directional transmission the sending power would have had to be increased 10,000 times, which, Marconi added, would not have been feasible.

Since the success of radio telephony and photographic transmission are dependent upon the strength of the incoming signal, Marconi declared he considered his experiments with beam transmission as a basic one for the improvement of the art.

Asked whether wireless would ever completely replace the cable, Marconi said the latter had only the advantage of secrecy, but that with the beam system secrecy was practically absolute in radio since words are transmitted at an high rate as 500 per minute, requiring complicated and expensive receiving sets. In addition such messages are subject to reception only by stations in the direct path of the beam.

Survey Farm Lands
Alberta Government Will Secure Information About Land In North

Edmonton.—Arrangements are being made for a beginning at an early date on the survey of Northern half-way agricultural lands upon which the Provincial Government decided some time ago.

Six of the field men on the staff of the Department of Agriculture will go North some time this week. It is expected for the purpose of making a general inspection of potential farm lands along the line of the E.P. and R.C. railways.

The intention is to ascertain how much land now vacant but capable of being profitably farmed is available for settlement.

The character of the soil, suitability for grain growing, ranching and farming, transportation facilities and other like topics will be covered by the survey, which will begin somewhere North of the present known and tested farming belt.

To Slaughter 1,000 Head of Buffalo

In order to reduce the size of the buffalo herd at Wainwright which of recent years has been increasing very rapidly, 1,000 head of these animals will be slaughtered during the coming fall and winter. The P. Burns Co. of Calgary, it is announced, has the contract for the killing and the meat will be sold as

a commercial product, while the hides find a ready market. In spite of the transfer of some 5,000 head of buffalo to the park reserves in the north, the remainder of the herd is still too numerous for the carrying capacity of the park.

Eastern Star Meeting at Blairmore

On Monday evening the Eastern Star chapter at Blairmore was visi-

ted by the grand worthy matron, Mrs. Jennie Carmichael, who has been visiting the various lodges of the Crow's Nest Pass. A number of members and visitors from Coleman and other towns as far east as Pincher Creek joined with Blairmore in welcoming the grand chapter officer, and following the business proceedings a very fine supper was served in the lodge room, followed by dancing till 2 a.m. The visitors

from Coleman speak highly of the fine reception accorded by the Blairmore members.

Alberta Crops Heaviest Per Bushel

Alberta's 1927 crops of wheat, oats, barley and rye lead those of the other western provinces as regards average weight per measure of bushel, according to the report of the Dominion Bureau of Statistics issued on October 10. On the basis of 100 representing the average for the past ten years Alberta grains are shown as follows, in comparison with those of the other prairie provinces and the entire Dominion.

	Alta.	Sask.	Man.	All Canada
Wheat	105	93	87	97
Oats	104	89	71	94
Barley	103	98	95	98
Rye	106	102	93	101

In the year 1923 Alberta was also in the lead on the ten year basis with wheat 105, oats 106, barley 103 and rye 102.

Ontario Premier Suggests Subsidizing Coal Shipments

Strong support in Alberta's move to place coal from this province on the Ontario market was promised by Hon. Howard Ferguson, Premier of Ontario, at a banquet tendered him by the Alberta Government and the Edmonton Board of Trade in Edmonton, on Saturday last. Premier Ferguson, who was welcomed by Hon. George Headley, urged the granting of a subsidy by the Dominion Government to overcome the difficulty of high transportation charges on coal to encourage inter-provincial trade, and suggested the same procedure to assist in moving grain, beef, fish and other western products to the markets of Eastern Canada.

St. Alban's Church Notes

There will be no meeting of the Clubs until further notice owing to the illness of the temporary cubmaster, the Rev. A. D. Currie.

Sunday school will be held as usual on Sunday at 2.30 p.m.

The Rev. A. D. Currie is steadily improving following a very serious illness. Many enquiries were made by friends during the past two weeks, and almost daily the Bishop of Calgary telephoned to learn of his condition. It is hoped that he will steadily improve and soon be able to resume his duties. It is only just recently that Mr. Currie was appointed rural dean by the Bishop, in acknowledgement of his faithful service in the church covering many years in this diocese.

Miners Union Donates \$50

The War Memorial committee acknowledges the donation of \$50 from Coleman local of the Mine Workers Union of Canada for the proposed memorial to be erected in Coleman, which brings the fund up to \$500.

Despite the off season in the coal industry, Jas. Ford town secretary, states the taxes have come in fairly good, and the bank indebtedness has been reduced about \$3500 since the first of the month. Total taxes collected for the month total about \$4200. Nearly \$15,000 is required for administration and debenture indebtedness this year.

The Hamilton Spectator, having said that women are the biggest buyers of a community, urges them to buy at home. "The article bought out of town," The Spectator says, "on which a small saving is effected, is no bargain if the purchase of it moves a Hamilton employee a step closer to the dismissal wicket."

Typewriter ribbons and carbon paper on sale at The Journal office. Ribbons \$1.00 each.

Matron Resigns from Hospital

Miss Tully, who since August has been matron in the Miners hospital, left last week for Calgary, and Miss Morrison has taken charge. The other members of the staff are Miss Wyatt and Mrs. Minchin. At present the wards are filled, there being a number of surgical cases in addition to the ordinary patients. Dr. Stuart, of Winnipeg, arrived this week as assistant to Dr. Borden.

A town is what we make it—think well of it and work for it and you will eventually be proud of it. Persistent, painstaking effort is the price of success no matter what the goal may be.

The Coleman Lumber Yard

Give us a chance to solve your building problems! We will submit to you lowest prices on anything that you may wish to erect.

Nothing too big! Nothing too small! We now have a large stock of Rough and Dressed Lumber, Sash and Doors, Cement, Brick, Lime, Plaster, Sillings, Laths, etc., etc.

ROLAND CRAYFORD

It's a Long, Long Trail

(Continued from Page One)

ving. Before retiring securely
locked my doors by placing chairs
under the knobs. The bed had one
of those rolling kind of mattresses.
Had to use a towel for a pillow.
Finding no other animals around I
slept. Early in the morning I was
awakened by a noise, and opening
my eyes saw a man looking over the
transom. I always go well armed,
so deliberately brought it out, but
before I could shoot through the
transom the scoundrel fled down-
stairs.

So far my trip has been full of
thrills, adventure and romance. I
don't mind travelling alone; study
of the classes and habits and modes
of living of the various nations is
educational and instructive. I have
chased coyotes over the plains and
desert, camped in the mountains

near the bears, but have taken care
to keep my ham or bacon on a tree
limb. I have killed many rattlers
and poisonous reptiles while hiking
over Texas, California and many
Southern States. I have been in
close proximity to alligators in the
swamps and everglades of Florida.
I sell these books to help defray
my expenses and hope later to pub-
lish a complete book of my trip to
the Capitoles of the World."

And so Nell goes on her way,
cheerful, smiling, and telling you
she is not lonesome, as there are
too many good many good people to
meet.

**Coleman Gives Support
to Navy League Campaign**
\$250,000 Required for League's
Work in Canada This Year

The Rev. Fred Cooke, representa-
tive of the Navy League of Canada,
who was here taking subscriptions
to "The Sailor" magazine and do-
nations for the Navy League wishes
to thank the citizens for their as-
sistance, as they have contributed
about \$53.00 to the Alberta divi-
sion.

The Navy League of Canada as-
sists the widows and orphans of our
men of the Merchant Marine as
they do not receive Government as-
sistance. It supports sailors' homes
and institutes in all our large Cana-
dian ports and looks after the wel-
fare of our seamen when ashore.
It also trains boys and young men
and makes better Canadian citizens
of them.

The Alberta Division is required
to raise \$8,000.00, its quota to the
\$250,000.00 budget of the Navy
League, and hope to raise it as soon
as possible, with the combined as-
sistance of the people throughout
the province of Alberta.

The Navy League of Canada di-
rected some 800 boys' and young
men into the Canadian Merchant
Marine, in 1926, and its work is
almost entirely in its interests.

Donations for the Navy League
can be sent to:

Jno. A. Irvine, Esq., Hon. Sec-
retary, or Rev. Fred Cooke, Orga-
nizing Secretary, at 817 First St. E.
Calgary, Alberta.

Once Famous Liner Is Being Wrecked

Empress Of Japan Boasted Finer Equipment Than Many Modern Ships

The hammers and jokers of a wrecking crew are making fast work of all that remains of the Empress of Japan, once one of the mightiest ships of the North Pacific.

For several years the old ship, which was launched in a British shipyard 27 years ago, has been lying at anchor in Burrard Inlet. Her once proud and majestic frame of copper design has gradually been converted into a bare skeleton of steel, and in a few weeks even this will have gone to Japanese yards to be fabricated in material for new ships. It is said that the man who bought the vessel from the Canadian Pacific Railway, which operated the vessel so many years in the trans-Pacific trade, has already made a fortune through the removal and sale of the vessel's fittings. In these days of rapid production few ships are given the fine equipment such as the Empress of Japan boasted. Every rivet was a perfect job, the plates were sound, not just in the bulkheads but swung freely and shut tightly as when the ship was new—all this, when the wrecking crew began its work of destruction.

The Empress of Japan had friends all over the world. Tens of thousands of people were carried as passengers in the days of her prime, and the ship with pride that is shared by the scores of seafarers who made the ship their headquarters for many years.

The Empress of Japan was one of the finest ships. The Empress of India was sold to the Government of Canada during the war and served as a hospital ship for Indian troops, later being returned to the merchant service. The Empress of China was lost on a reef off the Japanese coast some thirteen years ago.

Early Home Of Mankind

Find Skull In Africa Of Man Who Lived 25,000 Years Ago

A man skull, declared to be a perfect specimen of the type of man who existed about 25,000 years ago, has been brought to the United States by Dr. George L. Collie, professor of anthropology at Delhi College, India. Dr. Collie, who represented the Lehigh Museum of Delhi, in African excavations, borrowed the skull from M. A. Doherty, his French discoverer, for examination by United States scientists. This and other recent discoveries in Africa provide convincing proof, said Dr. Collie, that Africa and not Asia, was the early home of mankind.

Manitoba Aviation League

Organization Is Expected To Give a New Impetus To Flying In the Province

The keen public interest in aviation, and the fact that Winnipeg, in time, become one of the most important airports in this country, has resulted in the formation of the Aviation League of Manitoba. With leading citizens serving as officers of the organization, and on the Board of Governors, it is expected that the League will give a renewed impetus to flying in this province. The officers of the League follow: J. A. Richardson, honorary president; D. G. Coleman, president; H. P. Crabbe, secretary; Board of Governors: Edward Anderson, T. C. Anderson, W. R. Clubb, J. H. Coyle, P. G. DuVal, Charles Gray, W. H. Gardner, J. Hamer, S. N. Jones, W. A. Kingland, A. W. McLintock, W. McMurphy, Hugh Oiler, R. H. Parkhill, C. S. Riley, J. A. Sully, W. A. Strath, Mayor R. L. Webb, and W. G. Woodman.

The object of the League, as set forth in the constitution is: To foster, encourage, and advance the science of aeronautics; to kindle and keep alive interest in same and legitimate aviation; to encourage and assist scientific groups or institutions in promoting the science of aeronautics, and aerial navigation, and to promote uniform laws, flying regulations, and air routes. To prepare and distribute general and scientific aeronautical data pertaining to atmospheric conditions, flying fields and air routes, to encourage and organize volunteer air cadet squadrons for boys and young men, in which they can receive practical and theoretical instructions to prepare them for active participation in aviation, to do all such other lawful things as are incidental or conducive to the attainment of the above objects.

In keeping with the work of the League, Major-General J. H. MacBrien, C.B., C.M.G., D.S.O., addressed the Canadian Club at luncheon in the Royal Alexandra Hotel on Tuesday, October 18.

Wheat Rust Report

Much Data Obtained Which May Prove Valuable

A report covering his years of research into the wheat rust problem of Western Canada has been completed by J. H. Craigie, of the Dominion Research Laboratory of Manitoba. The report, which was forwarded to the National Research Council at Ottawa.

While no announcement of the results of the research will be made until the council has examined the report, it was learned authoritatively that Mr. Craigie's experiments will mark a forward step in the fight of western farmers to overcome the greatest of crop enemies.

Mr. Craigie has been at work for two years or more on his researches, but only in recent weeks has he been able to reach definite conclusions. The report will be made public in a few weeks' time.

Hill "60" For Sale

The news that "Hill 60" is to be put up for sale will raise strange memories in the minds of those who have but to hear its name to see themselves again in the Ypres Salient. To those who followed with anxious hearts the daily bulletins it was, and is, a name of ill-omen, to those who were sniped at from it, rumoured in it, swept over it in triumph, but it was learned that it again, were buried in it, were wounded on it, and in more than one sense fed upon it, will remember it with a queer affection.

One way to teach good manners to the children is to give them an opportunity of seeing some.

Spain's trade with France continues to grow.

DYSENTERY WAS SO BAD BECAME ALARMED

Mrs. Wallace Pepper, R.N., No. 6, Suncoast, Ont., writes: "Last summer I was very bad with dysentery, lost my appetite, and had such severe pains in my abdomen they made me very faint. I passed blood which grew steadily more so I hurried to the doctor. He told me the quickest way to get rid of it would be to take

DE FLOWERS' EXTRACT OF STRAWBERRY

"I took only part of a bottle and was completely relieved. I felt I cannot recommend it too highly."

This wonderful blood complaint remedy has been on the market for the past 20 years, put up only by The W. H. Burn Co., Limited, Toronto, Ont.

ROYAL HUNTERS

Prince Michael Sturdza, of the Roumanian Legation at Washington, D.C., and Princess Sturdza, who are enjoying a month's big game hunting in the Rocky River area of the Canadian Rockies, just outside the border of Jasper National Park, Alberta.

Radio In Demand For All Purposes

Requests Received By Chicago Station Are Many and Varied. People with requests to make, who used to call the newspapers and the telephone operator, have now turned to the radio.

The plea for the rendition of the wedding march on a certain evening was received by station WTTT of Chicago, and answered to the dot.

Usually requests for service or information come in the fan mail, but the telephone is used too.

A Chicago station received a long distance call from St. Louis. A fan wanted to know when Chicago would revert to central time.

An anxious mother in Iowa asked Station WMAQ, Chicago, to have someone meet her little daughter, please, when she arrived in Chicago on the train for Detroit, where she was going for a vacation.

The morning mail of another Chicago station contained requests: "From a woman in Nebraska, asking if the station would kindly undertake to market her croquet work."

From a Illinois farmer who sought to know the difference between a first and second mortgage.

From a woman in Iowa who requested suggested that the station would do her a great favor by sending her a recipe for a good caramel feed cake.

Safe Enough For Gold

Recent Shipment Shows Air Transportation Considered Fairly Reliable

Many persons who are doubtful about the safety of ordinary travel in airplanes may be reassured by the fact that gold, which is being used for shipping gold. One recent consignment of \$5,000,000 in that metal was taken from London to Amsterdam in an airplane as a part of the regular business of an air express line. Of course, the gold was insured, but the fact that the rate of insurance charged was moderate enough to make the use of the air route good business is in itself definite evidence to those who are watching the progress of human flight.

No one sends large sums, in gold coin or bullion, by transportation lines which are not reasonably safe.

Takes Photos In Fog

Inventor Of Television Gets Every Detail With Complete Clearness

Photographs showing every detail of the landscape with complete clearness have been taken in an opaque fog, according to J. Baird, the young Scotch inventor of television. He recently exhibited before the British Association in London such photographs and a camera, equipped with his television ray. The special photographic plates are sensitive to the infra-rays of the spectrum-rays which are invisible to the human eye, and "by this means the camera can record pictures through the thickest cloud. Baird predicts that photography and observation in the new war will be carried out by an airplane far above the clouds and hidden from the sight or hearing of the earth below.

Hard Order To Fill

It was dark as she stopped at the filling station. "I want a quart of red oil," she said to the service man. "The man gasped and hesitated. 'Give me a quart of red oil,' she repeated. "A quart of red oil," he muttered. "Certainly," she said, "my tail light is out!"

SUNDAY SCHOOL LESSON

OCTOBER 20

AMOS DENOUNCES SIN

Golden Text: "Seek good, and so evil, that ye may live; and so Jehovah, the God of hosts, will be with you, as ye say."—Amos 5:14. Lesson: Amos 2:4 to 3:15. Devotional Reading: Psalm 15:15.

Explanations and Comments

L. Judah's Sin and Threatened Punishment, versus 25.—"Thus saith Jehovah, the God of hosts, who Amos prefaced his denunciation of sin, for he rightly believed that he was the mouthpiece of a righteous God. "For three transgressions of Judah, say, for four (the Hebrew way of saying, of accumulated transgressions), I will not turn away the punishment thereof," Judah, the Southern Kingdom, had stained over and over again; it was not any one evil act that he called for, repeated evil acts that he called for. "Because ye have rejected the law of Jehovah, ye have despised his prophets (priests), and have not kept his statutes (the definite, legal enactments), and your kings have caused them to err, after which their fathers did walk," "Ily" they are meant the Southern cities, the Bethel and Astaroth, who have no existence save in the minds of the worshipers, and therefore are sure to disappoint his hopes."—Dummelow.

"But I will send a fire upon Judah, and it shall devour the palaces of Jerusalem." Judah would share the doom of the neighboring nations upon which the prophet had pronounced God's judgment in the earlier part of his address.

Start On Long Hike

Twins Brothers Walking From London, England, to Karachi, India

A 6,000 mile tramp with empty pockets in search of the romance of travel is the program of two young Englishmen who started to walk from London to Karachi, India.

They are twin brothers, Donald and Douglas Burton, and their route will take them through France, Italy, Yugoslavia, Bulgaria, Turkey, Arabia and Persia.

"It is to be a real 'roughing it' tramp," they said before starting, "but we are not going to take any money. We are English by birth and parentage, though for the last four years we have lived in Canada and New Zealand.

The twins will not be completely "bums" until they get to France, for they have just enough cash to take them through the Channel.

Says Greenland Once Tropical

Danish Explorer Has Evidence To Prove His Claim

Lauge Koch, Danish explorer, has returned to Copenhagen from an exploration of Greenland with evidence that Greenland was once a tropical country. Koch and two assistants explored the coastland of North Greenland to Denmarkmark, Greenland. The exploration is regarded as important because it shows inhabited lands as far north as North Greenland. Koch brought back the largest collection of specimens ever taken from Greenland, eight tons of fossils, plants, and animals showing three geological periods. Some specimens indicated that at one time there was tropical life on Greenland, such plants as palms growing in abundance. Signs of numerous hot springs and rich animal life were found.

Bidding For Ocean Traffic

The Germans are making a bid for the Trans-Atlantic trade. In 1929 they will have two ships ready of 45,000 tons each.

They will be coal burners. This is good news for us English, whose wealth and prosperity have been founded on our coal deposits. England is coming again into her own in the bunkers of German ships.

May Become Popular

Asserting his right to cross the street in safety a pedestrian in Southampton, England, appeared with a miniature, but noisy, motor horn attached to his walking stick. He sounded warning blasts to the more fortunate ones in automobiles when he was about to cross.

Will Be Coal Burners

This is good news for us English, whose wealth and prosperity have been founded on our coal deposits. England is coming again into her own in the bunkers of German ships.

Will Be Coal Burners

This is good news for us English, whose wealth and prosperity have been founded on our coal deposits. England is coming again into her own in the bunkers of German ships.

AFTER ALL There's Nothing To Equal

Zam-Buk

FOR THE SKIN!

Will Found German Colony

Many Former Aristocrats Plan To Settle in Canadian West

A party of landed German aristocrats have been looking around for land in the St. Walburg district, Saskatchewan.

The names of several of the Germans are familiar as being prominent in the German war news, and if their decision is favorable concerning the land in the district, a German settlement will spring up, comprising some of Germany's former nobility.

Dr. Suidel von Seiberg, of Berlin, who organized the party, has himself taken up a homestead in the St. Walburg district.

Count Otto von Neu Hagen, von Dresden, and Herr Carl Schultz, graduate of the University of Griefswald, the oldest German university, are leaving for Germany, where they will make a report on the land conditions for the Germans who intend to return in the spring, bringing with them their families and a large party of relatives.

Count von Iwan Hagen was territorial governor of German East Africa before the war. Others in the party were Count von Eulow, nephew of Prince von Bulow, who was German chancellor before the war, Gunther von Arnim, son of General von Arnim, and others of the blue blood of Germany.

World's Record Wheat Yield

74,000 Bushels From 1,300 Acres in Alberta

C. S. Noble, of Nobleford, Alberta, a former American, has this year beaten his own world's record in wheat growing made in 1915. In that year he grew 54,350 bushels of wheat on 1,000 acres, an average of 54.3 bushels per acre. This year a 1,300 acre field has yielded 74,000 bushels, an average of practically 57 bushels to the acre, the world's largest yield per acre from such an extensive acreage. Mr. Noble's record yield in 1915 was Marquis, the famous red spring wheat, originated in Ottawa, Canada. In 1903, this year he grew winter wheat of a variety developed at the Macdonald Agricultural College, at St. Anne de Bellevue, Quebec.

In southern Alberta, although most of the wheat planted in the spring, the growing of winter wheat is becoming more popular and Mr. Noble's record-breaking crop will have a further effect in that direction. On account of the warm climate, winter wheat in Alberta winters are remarkably mild. Live stock spend the whole year out of doors, and either winter or spring wheat may be grown, as the farmer prefers.

Latest Wireless Story

Nationality Of Foreigners Established By Use Of Microphone

The latest wireless story concerns a foreign vagrant apprehended by the New York police and interrogated regarding his credentials. But he spoke an exceedingly strange tongue.

The police interpreters were non-plussed, and eventually several professors of modern languages admitted themselves beaten.

At this juncture an idea occurred that broadcasting might be of service. Listeners to the nearest broadcasting station were accordingly acquainted with the circumstances, and the luckless individual was instructed to speak into the microphone. The distressing appeal was heard by a fellow countryman (says a writer in "The Wireless World"), with the result that the vagrant was identified as a Latvian. Explanations satisfied the police and he was allowed to depart.

In five months of this year, 40 branches of Canadian banks were opened and 21 closed.

Personal and Local

Order Christmas cards now!

Arthur Graham left on Wednesday night on a business trip to Merced, Alberta.

At the weekly social of the Rebekah Lodge last Saturday night prizes were won by the following: Mrs. Garner, Miss Kilgannon, Mr. Morris and A. Muir.

Sartoris & Bielli are commencing the operation of a saw mill at Blairmore.

Mrs. Ross Powell and little son arrived from Calgary on Monday morning to visit for a few days with Mr. and Mrs. G. R. Powell.

Mrs. S. Neilson, vice-president of the provincial Rebekah assembly, was the guest of Mrs. J. Neilson during her recent visit to Coleman.

The tennis club will hold their annual dance on Friday evening in the K. of P. hall.

Buy from the merchant who advertises in The Journal, and obtain full value and good quality merchandise in YOUR HOME TOWN.

Mrs. George Neil has returned home after being three weeks in hospital, and is making steady recovery.

O. Brindley, formerly of Coleman, is now living at Fernie, B.C., where he is agent for the Metropolitan Life Assurance Co., for which company he has been working for five years. Mrs. Brindley and children who have been living in Vancouver, expect to take up residence in Fernie.

Whilst it was raining heavily in Coleman on Sunday afternoon, at Pitcher Creek the sun was shining. Fine weather is needed there for some weeks as there is still quite a stretch of land on which the wheat is uncut, and very little has been threshed there owing to the wet weather and snow during the past month.

The annual dance of the Knights of Pythias was held on Monday evening in their hall, and a very fine program of dance music was given by Mrs. Altermatt's orchestra. Owing to other events on that evening the attendance was not as large as usual, but a very enjoyable time was spent by the members and their friends.

On Monday evening (Hallowe'en) the young ladies of the Shamrock hockey club will hold a dance in the K. of P. hall in aid of their funds. They hope to re-organize the club for the coming season, and in order to do this it is necessary for them to receive a good measure of support.

A very much annoyed householder chased some horses off his lawn three or four times in the one night, and finally his patience being exhausted, he went to the owner of the horses and made a very strong complaint. The practice of allowing stock to run at large within the town limits is far too common, and has been the cause of a great deal of annoyance to those who are trying to improve their premises by planting trees and laying out lawns. If some of those who own the stock were subjected to the annoyance that other people are, they would perhaps realize the value of the golden rule. It seems that the only way in which some can be made to realize the annoyance they are causing is the imposition of a stiff fine in addition to the costs of the damage.

Dance To-Night

Here at last! Harvey and his Red Tux Boys, official broadcasters for C.K.R.C., Calgary, Edmonton, Red Deer. To-night in K. of P. hall. You should be there!

The prize-winners at St. Alban's W.A. whist drive last Saturday were Mrs. J. C. Lang and Mrs. Roy Hart, and the gent's winners were Roy Hart and T. Flynn.

Coleman Shamrock Hockey Club

COLEMAN BAKERY

*All tell you why I'm going to
buy a Westinghouse*

"Those new Westinghouse Sets are great! I was over at Bill's last night to hear the radio he's been talking so much about. Oh boy, it's some set. There's as much difference between it and an ordinary set as there is between this car and my old bus."

"When you think it over, it's just what you'd expect from Westinghouse. They were the pioneers of both Alternating Current and Radio so you'd expect them to build the most advanced models operating on the lighting circuit."

"And another thing, Westinghouse have selected the most competent radio merchants in town as Westinghouse Dealers."

We will gladly demonstrate the 1928 Westinghouse models and explain the many improvements that make them better.
